**SPSREPORTCENTER#0 Report Center** A site for creating, managing, and delivering Web pages, dashboards, and key performance indicators that communicate metrics, goals, and business intelligence information.. Also few of the templates are marked as obsolete i e the old Records Center template ( OFFILE#0) i would suggest you to use the new template is possible while creating a Records center which is [ OFFILE#1].. Check the below table for the list of Template & their respective Codes with a brief description.

**STS#0 Team Site** A site for teams to quickly organize, author, and share information.. The welcome page includes a search box with two tabs: one for general searches, and another for searches for information about people.. **TENANTADMIN#0 Tenant Admin Site** A site for tenant administration It provides Web pages and links for self-serve administration.

**BLANKINTERNET#1 Press Releases Site** This template creates the Press Releases subsite for an Internet-facing corporate presence website.. **BDR#0 Document Center** A site to centrally manage documents in your enterprise OFFILE#0 (obsolete) **Records Center (obsolete)** This template creates a site designed for records management.. ” That’s true, but the difference goes a little deeper; it can be a significant factor in which template you choose when creating a site collection or subsite.. The site also lets you manage whether records can be deleted or modified after they are added to the repository.. This site can be customized easily with distinctive branding It includes a home page, a sample press releases subsite, a Search Center, and a login page.

**ACCSRV#4 Contacts Web Database** Create a contacts database to manage information about people that your team works with, such as customers and partners.

You can add and customize tabs to focus on other search scopes or result types **Visprus#0 Visio Process Repository** A site for teams to quickly view, share, and store Visio process diagrams.. You can add and customize tabs to focus on other search scopes or result types **PROFILES#0 Profiles** This template creates a profile site that includes page layout with zones.. **SPS#0 SharePoint Portal Server Site** This template is obsolete **SPSPERS#0 SharePoint Portal Server Personal Space** This web template defines a Personal Space for an individual participating on a SharePoint Portal.. In my role as a SharePoint administrator and consultant, I usually created sites for others to manage.. You edited the home page by adding (or removing) web parts, including perhaps a Content Editor Web Part if you wanted a block of text, or an Image Web Part if you wanted a graphic.. You can get hands-on experience with site templates in a number of our classes and classes, including developing custom templates in.. **ACCSRV#5 Projects Web Database** Create a project tracking database to track multiple projects, and assign tasks to different people.. These templates also existed in previous versions of SharePoint In the 2007 version and earlier, the Blank and Team templates were identical except for the fact that the Team template had a library and several lists already created and in place.
